

CIVITAS

CIVITAS *LÁPIS*

Dare to Value your Peace and Home

A collection of five tables and side tables celebrating the natural beauty of fibre concrete — made for lovers of organic brutalism. In the *LÁPIS* collection we present classic brutalism through natural textures, imperfect lines and warm materials drawn from nature — at home in modern, warm interiors and exteriors alike.

Handcrafted

Every piece is an individual story, which is why slight differences in colour, tone and texture occur. Working with natural concrete can never be identical — and that is exactly why each product is perfect in its own way.

A Photograph Is Not a Mould

The colour and texture shown may differ from the actual product due to lighting, screen calibration and other factors in photographic processing.

Every CIVITAS Is Different

No two tables are ever exactly alike — and in that lies their value and singularity.

ABOUT THE COLLECTION

LÁPIS

LÁPIS comes from the Latin word for stone. It stands for timeless beauty carrying strength, stability and a monolithic design inspired by nature.

The *LÁPIS* collection of tables and side tables is hand-shaped from premium fibre concrete — GFRC. This innovative glass-fibre reinforced concrete delivers exceptional strength and longevity while retaining the aesthetics and texture of real stone.

Resistant to high temperatures, frost, moisture and other indoor and outdoor conditions, it suits any interior and exterior. The *LÁPIS* collection follows neither season nor passing design whim — its purpose is to give a space lasting meaning.

To preserve the natural, warm character of our tables, we present the *LÁPIS* collection in two authentic shades: *Avorio* and *Calce*. Left unaltered and natural, these tones convey the full beauty of shades taken directly from nature.

MATERIAL

Material	Fibre concrete (GFRC)
Pigment	Mineral, integral to the mix
Surface	Hand-sanded, matt impregnation
Gloss	Matt, max. 8 GU
Application	Interior and exterior
Tolerance	± 2 mm

STANDARD COLOURS

Avorio

Calce

MODELS

LÁPIS Tables

CIVITAS LÁPIS — MONOLITH 30 / AVORIO

MONOLITH

Height	55 cm
Diameter	Ø 30 cm
Material	Fibre concrete · Avorio
Application	Interior and exterior
Price	320 €

Product description:

MONOLITH is a hand-shaped fibre concrete side table. Its sanded surface reveals the texture of stone, while the matt impregnation preserves the natural tone of the pigment. At 55 cm high and 30 cm in diameter it takes up little space, yet lifts any indoor or outdoor setting to an enviable aesthetic level.

CIVITAS LÁPIS — CLIFF 40 / AVORIO

CLIFF

Height	53 cm
Top diameter	Ø 40 cm
Top edge (return edge)	8 cm
Base diameter	24 cm
Material	Fibre concrete · Avorio
Application	Interior and exterior
Price	340 €

Product description:

CLIFF takes its name from a stone texture recalling a steep, vertical rock face, which we placed along the vertical edge of the upper slab. A side table 53 cm high with a 40 cm top, it can stand alone or be combined with other **LÁPIS** models — STRATA and SCALA — to create the ideal mood in any space. Strong and weather-resistant, it is equally suited to outdoor and indoor use.

LÁPIS Tables

CIVITAS LÁPIS — STRATA 60 / AVORIO

STRATA

Height	45 cm
Top diameter	Ø 60 cm
Top edge (return edge)	8 cm
Base diameter	30 cm
Material	Fibre concrete · Avorio
Application	Interior and exterior
Price	480 €

Product description:

STRATA and, like the entire **LÁPIS** collection, highlights the beauty of the nature around us. STRATA and GFRC form a direct link between the natural stratification of the earth and contemporary furniture design. Every table carries a visible trace of its making — proof that it was shaped, not moulded to perfection. STRATA is a coffee table 45 cm high with a 60 cm top and an 8 cm relief edge, making it perfect for relaxed gatherings. Like the whole collection, it withstands both outdoor and indoor conditions.

CIVITAS LÁPIS — SCALA 80 / AVORIO

SCALA

Height	37 cm
Top diameter	Ø 80 cm
Top edge (return edge)	8 cm
Base diameter	38 cm
Material	Fibre concrete · Avorio
Application	Interior and exterior
Price	560 €

Product description:

SCALA is the lowest and widest table in the **LÁPIS** collection, coming fully into its own alongside STRATA. The name SCALA refers to the stepped relationship of heights within the collection. It is designed to sit in complete harmony with the other models of the **LÁPIS** collection while offering more room for serving or styling on its 80 cm top, framed by an 8 cm relief edge. The base stands 37 cm high.

MODELS

LÁPIS Tables

CIVITAS LÁPIS — PETRA 140/65 / AVORIO

PETRA

Product description:

PETRA (Greek for rock) stands for stability and strength, letting any space around it breathe reliability and elegance. As the largest model in the **LÁPIS** collection, with an elliptical top of 140 × 65 cm, PETRA commands the room and works perfectly as a standalone piece — whether in a contemporary office meeting setting or the private surroundings of your home.

DIMENSIONS

Height	45 cm (37 cm option)
Top — length	140 cm
Top — width	65 cm
Top edge (return edge)	8 cm
Base diameter	38 cm
Material	Fibre concrete · Avorio
Application	Interior and exterior
Price	1.270 €

Design option: given the size of the top, PETRA can also be built on **two** bases instead of a single central one. A structural variant for added stability.

From Five Models to One Idea

LÁPIS — an idea that grows with the space

The *LÁPIS* collection began as an exploration of form, texture and material character through five carefully shaped models. But *LÁPIS* was never conceived as a final boundary.

The same idea can be carried into larger dimensions, different proportions and entirely bespoke pieces — adapted to the space, the architecture and the way of living.

The large dining table on this page is exactly such an example. Its shape, proportions and surface finish are developed from the visual language of the *LÁPIS* collection, yet adapted to a larger format and a different role in the room.

In this way every CIVITAS piece can become the starting point for something new.

**From a finished collection to individual design.
From an idea to a piece that belongs to your
space alone.**

Throughout, CIVITAS keeps what lies at the heart of every product we make — handcraft, the character of natural material and respect for its authenticity.

The Nature of Civitas Products

Every CIVITAS is different — no two tables are ever exactly alike, and in that lies their value and singularity.

Handcrafted

Our tables are not mass-produced industrial goods. Each piece is perfect and distinct because it is shaped by hand, without identical moulding. Concrete is a natural mineral material whose appearance shifts with composition, pigments, aggregate, casting and finishing, so no table is ever exactly like another. Slight differences in colour, tone and texture are a natural part of the material, not a flaw.

Care

The surface should be cleaned according to the instructions supplied with the product — abrasives and aggressive substances can affect the protective layer.

Custom Dimensions

CIVITAS models are not limited to the standard dimensions shown in this catalogue. The same design can be produced in other dimensions, adapted to the space, the intended use and the client's individual needs, within the structural, material and production limits of each model.

The same character. Your dimensions.

Its Own Story, Its Own Character

Products of the same model may vary in the distribution of shade and texture. CIVITAS does not hide the nature of concrete but draws out all its strengths and turns them into singular design. The aim is a product that will not repeat itself from room to room, because every space deserves a story of its own.

A Photograph Is Not a Mould

The colour and texture shown may differ from the actual product due to lighting, screen calibration and other factors in photographic processing.

Terms and Information

LEAD TIME

Every product is handmade to order. The standard lead time is 4 to 6 weeks from order confirmation.

DELIVERY

Delivery is charged separately and depends on the destination. The cost is calculated and confirmed before the order is dispatched. If delivery is arranged by a third party or by the client, CIVITAS is not liable for any damage occurring in transit.

PERSONALISATION

Special colours and non-standard dimensions outside the models offered are charged additionally.

WARRANTY

Each product carries a 5-year warranty. In the event of damage — including a cracked top or similar damage caused by exposure to heat or winter conditions — the product is replaced with a new one. The warranty applies solely to standard catalogue products.

SAMPLES AND COLOURS

Product photographs are taken in a studio. The final colour may differ from what is shown. Samples can be ordered to your address for inspection, provided they are returned after review.
